

Description:

The Elite Delta is the next evolution from the industry leading Aurora light. The integral versatile base allows the user too quickly and conveniently power or charge devices. The high output 360° light distribution delivers 3600lm.

Product Code: DL36

Specification:

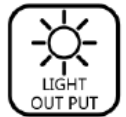

- 36W 3600lm output.
- 1200mm diffuser height – illuminates a standard ceiling without shadowing
- Carry handle in centre of product, perfectly balanced, and weighted base for stability
- Solid state LED technology
- CRI >80 and colour temperature of 6400K
- Fully CE compliant and manufactured to meet IP54 and IK08.

Differentiator:

- Small footprint base, no wide tripod to trip over!
- Full 360 light distribution.
- Fully integrated power base to either charge USB devices or run additional equipment
- 1 Product – 1 fleet number – easier fleet management!
- All components are manufactured from robust materials to ensure the product performs in the harshest environments
