

EXCLUSIVE TO
MEP HIRE

FAST. SAFE. EFFICIENT.

Eliminate the risk of drops and injury and speed up fit times when installing A/C cassette type units with the Indoor Split Hoist...

This new product is available exclusively with MEP Hire and has been designed to improve your safety provision, whilst increasing your productivity.

The **Indoor Split Hoist** attaches quickly and easily to **M8** and **M10** stud, eliminating the need for manual lifting and handling.

The weight of the unit being fitted is supported effortlessly by the hoist, making it easy for a single engineer to fix it into place.

HOW IT WORKS...

- 1 CLAMP**
Simply attach the Indoor Split Hoist diagonally to the stud supports.
- 2 ATTACH**
Use the straps to fit your unit to the hoist.
- 3 LIFT**
Using a cordless drill, steadily hoist your unit into position.
- 4 SECURE**
Fix your unit into place. Then undo the straps and remove the hoist from the stud supports.

SPECIFICATIONS
