

EXCLUSIVE TO
MEP HIRE

FAST. SAFE. EFFICIENT.

Eliminate The Risk Of Drops And Injury And Speed-up Fit Times When Installing External A/C Condensers With The Outdoor Split Hoist...

This new product is available exclusively with MEP Hire and has been designed to improve your safety provision, whilst increasing your productivity.

The **Outdoor Split Hoist** enables you to fit outdoor A/C Condenser type units to external walls, eliminating the need for manual lifting and handling.

The weight of the unit being fitted is supported effortlessly by the hoist, making it easy for a single engineer to fix it into place.

HOW IT WORKS...

1 CLAMP

Simply attach the Outdoor Split Hoist to the external wall bracket.

2 ATTACH

Use the straps to fit your unit to the hoist.

3 LIFT

Using a cordless drill, steadily hoist your unit into position.

4 SECURE

Fix your unit into place. Then undo the straps and remove the hoist from the stud supports.
