## INTRODUCING THE RIDGID® 760 FXP™ POWER DRIVE

Get precise threads, unprecedented speed, and maximum portability. The cordless high-voltage power drive features innovative technologies that allow the user to complete threads with minimal margin for error and maximum ergonomic comfort. It is driven by the new RIDGID Brushless Motor Technology, which provides industry leading speed at 42 RPMs and requires less maintenance, with no brushes to wear. Designed for maximum safety, with:

- ▶ Tool automatically shutting off when severe kickback is detected
- ▶ No push on the die head at thread start
- ▶ LEDs near the head of the tool light up the workspace
- ▶ Cordless technology, which prevents tripping hazards
